# RICE LIST

# The Neosho Nurseries Co. Spring 1929

F.O.B. Neosho, Missouri

**SPECIAL QUOTATIONS ON LARGE QUANTITIES:** If you require larger quantities than are quoted herein, send us your list, giving the number required of each variety, for our quotation. We make a specialty of supplying orchardists and nurserymen.

**TERMS:** Cash on orders for less than \$10.00. On orders for \$10.00 or more a deposit of 10 per cent is required with order, balance before shipment.

**REPLACEMENTS:** Any stock that fails to grow the first season will be replaced at half-price if reported by November 1st following planting.

**FOR OUR CUSTOMERS'** convenience we have included schedules of approximate cost to ship by Parcel Post. If your order is to be shipped this way please add postage.

**QUANTITY RATES:** Apply on trees or plants of one class or kind. For instance, 25 apple or crabapple of one or more varieties entitles you to the 25 rate. But 5 apple, 5 peach, 5 plum, 5 pear and 5 cherry would take the 5 rate.

**INSPECTION:** Every package bears the certificate of inspection of the State of Missouri. We welcome rigid official inspection such as is given in some states upon arrival.

**GUARANTEE:** We guarantee your satisfaction upon arrival of your order. If you should receive any unsatisfactory stock, heel it in subject to our disposal. All claims should be made immediately upon receipt of goods.

**TRUE-TO-NAME WARRANTY:** The best guarantee of trueness-to-name is the precautions and care we take in handling and labeling our stock. If, however, any tree or plant should prove untrue-to-name, it is understood and agreed that the Neosho Nurseries shall be liable for the sum paid for the stock which may be proven untrue and shall not be liable for any greater amount.

## TRIPLE THE LIFE OF YOUR GRIMES TREES

by planting our double-worked trees. The Grimes part is budded about 18 inches from the ground on a hardy variety not susceptible to collar-rot. These Double-worked Grimes have roots and stock that are two seasons growth. Prices are the same as for two-year apple.

**APPLE—ONE YEAR—GRAFTS**—Same varieties as listed above. One Year Tops—One Year Roots (Straight Whips). One of our customers planted 2,800 one-year grafts last spring and lost only one tree. He is planting another orchard of them this spring.

Sold only in quantities of 25 or more of one variety.

Orders for ONE-YEAR GRAFTS must reach us by March 15th.

## RICHARED (Trade Marked) DELICIOUS

This strain of common Delicious colors up a solid red two or three weeks earlier but is identical in flavor, size, shape and texture. The Richared originated near Wenatchee, Washington, in the orchard planted in 1910 of G. T. Richardson. Trees grown from this original tree have borne fruit true-to-strain.

Wherever the common Delicious thrives, this Richared, will prove more profitable because it can be picked and marketed two weeks earlier with solid red color. Windfalls are avoided and the keeping quality is better.

Purchasers are required to sign an agreement not to sell or give away or dispose of any buds or scions from these trees.

## NOVELTY APPLE TREE FIVE VARIETIES ON ONE TREE

We have a limited number of apple trees with from 3 to 5 different varieties budded on as many different branches.

These varieties ripen from early summer to late fall—Duchess, Wealthy, Grimes Golden, Jonathan and Delicious—all dependable, high grade apples.

These trees are 3 yrs. old with trunks 1/4, 3/4 and 1 inch thick.

**PRICES**—F. O. B. Neosho, cash with order. Satisfaction guaranteed upon arrival. Too large for Parcel Post.

5 Varieties on one tree, \$2.00

4 Varieties on one tree, \$1.75

3 Varieties on one tree, \$1.50

## FRUIT TREES BY PARCEL POST

Sizes starred (\*) may be shipped by Parcel Post. Add 10c for one, 20c for 5, 35c for 10, 60c for 25.

We will refund any difference if actual postage is less.

## EVERGREENS

Neosho Evergreens are carefully hand dug, the balls of earth wrapped with burlap. Frequent transplantings with root prunings in the nursery row develop a mass of fibrous feeding roots within the ball.		
OUR GUARANTEE is to deliver good, thrifty specimens that will meet your approval on arrival. There is positively no guarantee as to growth.
